PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience in full stack web development, MERN stack, and cloud-based applications. Proven ability to design and develop scalable, responsive web solutions using React.js, Node.js, MongoDB, Java, and Python. Experience working on real-world projects, core banking platforms (Temenos Transact, TPH, FCM), and RESTful APIs. Strong foundation in problem-solving, data structures basics, teamwork, and agile development, with a passion for building efficient, user-centric software solutions.

TECHNICAL SKILLS

Programming Languages: Java (Core Java, OOP Concepts), Python (Basic, Problem Solving)

Frontend Technologies: HTML5, CSS3 (Responsive Design, Flexbox), JavaScript (ES6+), React.js (Components, Hooks, State Management)

Backend Technologies: Node.js, Express.js, RESTful API Development

Databases: MongoDB (CRUD Operations, Schema Design), SQL (Basic Queries, Joins)

Full Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), End-to-End Web Application Development

Cloud & Dev Tools: Firebase (Authentication, Realtime Database), Git & GitHub (Version Control), Visual Studio Code

Core Computer Science Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC & Agile Fundamentals

WORK EXPERIENCE

SOFTWARE DEVELOPER TRAINEE

(2025 - Present)

Avenza Consulting Services Pvt Ltd

- Contributed to core banking transformation projects, working with Temenos Transact, Payments Hub (TPH), and FCM to support modernization of enterprise banking systems.
- Assisted in analyzing banking workflows, transaction processing, and system integrations within secure financial environments.
- Collaborated with cross-functional teams following SDLC practices, gaining exposure to large-scale enterprise applications.

FULL STACK WEB DEVELOPMENT INTERN

Aug-2023

Frenzo Technologies Pvt Ltd

- Developed responsive web applications using HTML5, CSS3, and JavaScript with cross-device compatibility.
- Implemented backend functionality using Python, supporting data processing and frontend-backend integration.
- Applied clean coding practices and version control, strengthening full stack development fundamentals.

PROJECTS

Crowdsourced Hyperlocal Alert Platform | 2025 - Present

Tech Stack: React.js, Node.js, MongoDB, Firebase, Google Maps API

- Built a scalable full stack web application for reporting and tracking hyperlocal civic issues with real-time notifications and map-based visualization.
- Developed RESTful APIs and integrated Firebase and Google Maps API to enable location-aware, real-time data processing.

OrphanConnect - Cloud-Based Management System | 2024

Tech Stack: React.js, Node.js, MongoDB, REST APIs

- Developed a cloud-based full stack platform to manage donations, volunteers, and orphanage operations using secure REST APIs.
- Designed a scalable database schema and responsive UI to support multi-role access and real-time data flow.

Canteen Rush Management System | 2024

Tech Stack: Web App, Mobile App, QR Code, Digital Wallet

- Built a multi-module digital ordering system with QR-based food ordering and cashless payment integration.
- Improved operational efficiency and wait-time reduction through automated order processing and real-time status updates.

EDUCATION

B.E COMPUTER SCIENCE AND ENGINEERING **CGPA : 8.63**

2022-2026

Dr.N.G.P. Institute Of Technology

SSLC **PERCENTAGE : 82.6**

2019-2020

St.Joseph's Matriculation Higher Secondary School

HSC **PERCENTAGE : 85.3**

2021-2022

St.Joseph's Matriculation Higher Secondary School

CERTIFICATION

- MERN Stack Web Development** - MongoDB, Express.js, React.js, Node.js (Full Stack Application Development)
- Microsoft Certified: Full Stack Development using Python** - Scalable Web Applications, HTML5, CSS3, Backend Development
- NPTEL Certified: Cloud Computing** - Cloud Architecture, IaaS, PaaS, SaaS, Virtualization
- HackerRank Skill Certification: Python (Basic)** - Problem Solving, Control Structures, Functions
